

## **COVID-19 PRECAUTIONS**

As a business, we are taking steps to promote a safe environment for our students and staff. Please review our new COVID-19 guidelines:

To reduce the risk of spreading of COVID-19, we take these steps in our classroom:

- Disinfect all contact points prior to students arriving.
- Provide means for students to wash hands or clean hands with a wet wipe and/or hand sanitizer.
- Use an air purifier (REME-HALO® by RGF®) that reduces airborne particulates (dust, dander, pollen, mold spores) and kills up to 99% of bacteria, mold and viruses on surfaces and in the air.

For our private, behind-the-wheel driving lessons, we take the following precautions:

- Disinfect the car between students.
- Wash or sanitize hands prior to lesson.
- Allow fresh air flow, when feasible.
- If any occupant in the vehicle at that time (student, instructor, or parent) requests it, then masks will be worn during in-car driving lessons by all occupants.

Instructors and/or Students are not to come to class or lessons if any one of the following are true:

- They had fever of 100.4° F within the last 48 hours.
- They have unexplained cough, difficulty breathing, shortness of breath, sore throat, or loss of taste or smell.
- They or a member of their household have tested positive for COVID-19 and their quarantine time is not complete.
- They have been in close contact with a person infected with COVID-19 within the previous 10 days or 7 days with a negative test at the end.
- They have tested for COVID-19 and are awaiting test results.
